

A universal ventilating dry hip system, best suited for concrete.

The Roll Fix Concrete Universal Hip Kit is a universal dry hip system most suited for concrete hip tiles. Available in three colours to blend in with the roof, it comes in a practical all-in-one kit and includes hip trays and cro clips.

Typical section

Hip detail with universal hip tiles

Features and benefits

- Mortar free, making it quick to install in most weathers.
- The ridge seal comes with fixed lugs for easy application.
- Premium ridge roll with stainless steel fixings.
- Highly durable - UV stable and water and wind resistant.

Area of application

- Suits most concrete hips.
- Can be used on clay hip tiles, where lugs do not interfere, when used with the clay conversion kit.
- New build and refurbishment.

Related products

- Flashing Glue (PACCGI). This is recommended to help fix the butyl strip in damp conditions.
- A conversion kit for clay hip and replacement accessories and fixings are also available (please see table below).

Approvals and certifications

- Complies with BS 5250 for ventilation, BS 8612 for performance and BS 5534 for mechanical fixing.
- Manufactured to DIN 4108/3.
- All products supplied by Klobber Ltd are covered by a 10 year guarantee against manufacturing defect.
